

Platform - carrying different goods

High flexibility and efficiency - the platform makes it easy to lift and carry goods, such as equipment with wheels or small trolleys. The platform can also be used for pallet handling.

The platform with quick shift system can easily and quickly be fitted on all Trans-Positioners and Trans-Stackers with straddle legs. Furthermore the platform can easily be replaced by one of the various fork options.

A wide range of optional extras ensures an optimum utilization of the Trans-Positioner and Trans-Stacker - the same unit can be fitted with spear, crane arm, drum turner and reel rotator.

High quality is ensured through an extended test program and in cooperation with experts in Health and Safety.

Technical Specifications

The platform also lifts and carries non-palletised goods

- equipment with wheels
- small trolleys
- high pressure cleaners
- vacuum cleaners
